**WILL MEET TONIGHT.**

The Masonic Committee Will Agree on Details of Court House Dedication.

Topeka lodge No. 17 of the Masons, which was invited by the board of county commissioners to assume charge of the dedicatory services at the new court house, has selected a committee composed of W. C. Garvey, Sam Radges, Dr. C. B. Reed and H. C. Bowman, to act with Chairman J. Lee Knight in arranging for the ceremony. The ancient Masonic corner-stone ceremony, one of the most impressive in the entire ritual, will be read. All the other Masonic bodies in the city will be asked to participate in the exercises, and other secret societies in the city will be given an opportunity to turn out and do their most appropriate ritual. The committee will hold a meeting tonight to arrange other details of the exercises.

**MUST RUN THE GAUNTLET**

New Santa Fe Employees Must Be Passed on by the General Manager.

There were a few slight changes in the force at the Santa Fe shops this week. During the week eight new men were taken into the machine shops. They were helpers or apprentices. Fifteen car repairers were taken from the shops here and sent to Argentine to work. General Manager Frey has caused to be posted on the different bulletin boards a proclamation signed by himself in which he says that the new men employed during and before the strike will not be displaced so long as they are faithful and efficient employees; that none of the men discharged during the strike or quitting at that time in aid of the strikers or agitating or urging others to quit will ever be taken back into the service of the road in any capacity whatever.

He further declares that he will hereafter entertain no committees of laboring men or others who desire to have such men reinstated, and that any man who desires work on the road shall apply in person to the head of the department in which he desires to be employed, state his case, and it will then be referred to the general manager for final decision. Mr. Frey seems determined not to again employ any of the men connected with the late strike against the road.

**Chief Cane's Project.**

Chief Cane, of the Wichita police, was in the city yesterday visiting Chief Lindsey. Chief Cane is the originator of the idea of a state organization of the heads of all police departments for the detection of crime and criminals. He has issued invitations to the chiefs and marshals of all cities in Kansas to be present at a meeting at Wichita on October 2 for the purpose of effecting an organization. This new organization will also work in unison with the national one. He thinks that at least 150 chiefs will be present at the initial meeting.

**MOST REMARKABLE CORRESPONDENCE**

Concerning the Cholera Fund—One Doctor Says "There is \$200 in it For Each of Us and Let Us Keep Mum Until We Get All We Can Out of It."

HALSTEAD, Kan., Aug. 30, 1894.

To the Editor of the State Journal:

In your issue of August 29th there are some resolutions denouncing me for my actions as a member of the state board of health, passed by the state board of health meeting of August 28th. I wish to state that I did oppose last year's appropriation of \$2,000, as a letter in Dr. Dykes' office will show if he has filed it away. Last year, before the appropriation was asked for, Dr. Dykes wrote a personal letter to each member of the board stating that his correspondence was so extensive and that cholera was in Europe and that it was liable to get to Kansas in a very short time and he wanted \$200 to hire a clerk with, (but did not state that there was already \$300 appropriated for that purpose.) I wrote him that I thought he was amply paid for all the work there was to do and that I was not in favor of using any of the money for that purpose. When the board met after he (Dr. Dykes) had sent out these letters he told me that Dr. E. Swarts and myself were the only ones opposing and the rest of the members were in favor of the appropriation. So I thought I would not say anything as the appropriation might be a benefit to Kansas, and, as the resolutions say, I may have seconded the motion. I visited my district and made my report as any one can see by getting the ninth annual report, state board of health, page 296, and when I made my report I drew the \$200 which was appropriated to pay car fare, hotel bills, and for my time spent in visiting the various counties in the 8th district.

I received no notice of the June meeting of this year. Dr. Dykes says he mailed me proper notice; he that as it may, the notice never reached me and when I saw a report of the meeting in your Journal I wrote Governor Leavelle and asked him if my appointment had been revoked, as I had not been notified of the June meeting and it might be possible I had been dismissed. He wrote me I had not been dismissed and that there were no charges against me and I was still a member in good standing and he could not understand my letter. I wrote him on June 30th, and in the letter I said:

"As you are one of the executive committee to guard the special appropriation of ten thousand dollars cholera fund, I advise you to keep a hand on the purse string. Privately there is, I think, on hand a move to get another slice from the \$8,000 left in the state's treasury of the cholera fund."

Now, governor, there is a trigger in the wood pile and if you keep your eyes on the \$8,000 money pile you will see the colored gentleman. I wish you to watch as well as pray and keep things quiet and see what will develop."

On June 26, 1894, when the governor saw the colored gentleman he wrote me as follows:

TOPEKA, June 26th, 1894.

DEAR SIR: I have only this moment been made an officer of the 8th dist. I understand from what you write that you were elected to the board of health. I am anxious that the board of health will be composed of men of high character and ability. I have no objection to your being on the board, but I have a suggestion. I think you should advise the members of the executive council of your position. I certainly hope you will do so. I am sure that this kind of a move, if it is a move, will be better served. Very truly yours,  
L. M. LEWIS, GOVERNOR.

In answer to the above I wrote the governor a letter stating the facts as I saw them and filed my objection to the appropriation of the cholera fund as follows:

"I object. First—Because it is a useless expenditure of the people's money."

Second—Because the legislature did not set apart ten thousand dollars to be used by the state board of health on junketing trips over the state."

"Third—That there is no cholera or any scourge in our land needing special attention."

"Fourth—That the health officers of each county are doing all that is necessary for the preservation of the health of the state."

"Fifth—That where there is a special visitation of disease that demands the state board of health in quarantining and taking care of scourged districts, then and not until then am I in favor of a special appropriation of the ten thousand dollar cholera fund."

"Respectfully submitted,

E. M. HOOPER, M. D.

I am sorry and pained to think these resolutions denouncing me should be presented to the board by one whom I thought was my friend, and I like Caesar of old, when he saw the senators one by one, draw their daggers he looked at Brutus and thought "Brutus will be loyal to me," yet Brutus drew the dagger to kill his friend; so like Caesar I must exclaim, "you, too, Swarts."

On the 3rd of June 1894 I wrote Dr. E. Swarts a letter asking him if he had been notified of the June meeting and I received the following letter:

KANSAS CITY, Kans., June 4, 1894.

E. M. HOOPER, Halstead, Kansas.

DEAR DOCTOR:—I received yours of the 3rd inst. in reply would say I was notified but ignored while there. The humors of the state and the fact that I was not notified of the meeting was caused in and was with them. The bills were not read and passed upon, but left with the secretary and president. So you see how things are managed. Dykes told me he had notified you, but did not think you would be here. I am sure that there is no danger to us, and when I got that I am going to resign. There is a trigger in the woodpile, and we will get up a sensation when we get all out of it we can.

Yours,  
E. SWARTS, M. D.

Citizens of Kansas! Read Dr. Swarts' letter carefully, and see if I am a fabricator and a maligner of my professional associates?

Which one of the two has been true to the trust imposed on us?

If preventing a misappropriation of \$8,000 is a fabrication and a maligner I stand and plead guilty to the charge, believing that there will come a time when the state board of health will feel different toward my stand in this matter, and not ostracize and condemn a man because he stands up for what he believes to be right and just, and we hope the time will soon come when men will be on the state board of health, not because they belong to a certain political party, but the question will be asked, "Is he worthy and competent to fill the office?"

I will say that the state board will

**HE PAYS NO LICENSE.**

A Doctor Who Sells Nostrums Just Outside the City Limits.

A travelling doctor with patent medicines to sell has hit upon a new scheme for avoiding the payment of a city license. He has built a large amphitheatre on West Sixth street, just beyond the city limits. After supper every night he has a brass band that plays selections with more volume than harmony.

The doctor succeeds in drawing a crowd and selling his nostrums much as a street fakir.

The Dear Children Must Have Something to Amuse Them These Evenings.

Crazes for amusement among children come and go like the fashions do among older people.

It was only a little time ago that the kite craze held full sway. Every boy and some of the girls had them, and many had two or three. There were kites little and kites big hanging in delightful profusion from house tops, street wires and trees. There were kites lying in the gutters and winding themselves up in wheels of passing vehicles. A gutting gun turned in any direction and fired to the sky would have brought down a variety of kites that an electric fountain could not equal.

Finally the boys conceived the idea of fastening lanterns to the tails of their kites and sending them heavenward to terrify superstitious people, but the craze degenerated into the one that now holds undisputed sway among the coming presidents and equal suffragists of Topeka—the lantern craze.

No little boy or little girl who has not at least two or three lanterns of a curious variety will be able to secure a footing in the most exclusive circles of kindergarten society within a very short time if the craze continues.

If you go out on any of the side streets most any evening you are more than likely to suddenly find yourself surrounded by a crowd of howling juvenile demons with lanterns of all kinds, sizes and colors and every avenue of escape cut off.

The lanterns the children are using in their torchlight parades are for the most part Chinese and Japanese. There is a home-made lantern however that is rapidly assuming an alarming degree of popularity. It is made of an ordinary pasteboard shoe or candy box. Part of the bottom is taken out and a piece of strong tissue paper pasted over it, the paper having previously been decorated with a face the hideousness of which depends upon the imagination of the maker. Skull and crossbones are popular, devils' heads are acceptable, and even some of them are good representatives of public men. One little boy on Topeka avenue, it is said, has one from which glares out at you a recognizable picture of our great president.

dent, and an east side hopeful is doing his best to make one of his look like Senator Peffer.

The children take these lanterns in their neighborhood, and do their marching to their own singing. A crowd of them took possession of West Sixth avenue the other evening to the tune of "John Brown's Body" and held it for an hour or more, till the 9 o'clock ordinance ran them home again.
